

**IMPORTANT NOTICE TO ALL PARTICIPATING DISMANTLERS IN THE
AIRCHECKTEXAS DACM PROGRAM:**

Effective February 1, 2011, the Texas Commission on Environmental Quality (TCEQ) will require a 6-month timeline for the transfer of AirCheckTexas Drive a Clean Machine (DACM) retired vehicles from the dismantler to the recycler.

The requirement to transfer the retired vehicle to a participating recycler within 6 months of receipt is necessary to ensure retired vehicles are being destroyed and recycled in a timely manner.

Any AirCheckTexas DACM vehicles already in inventory must be transferred to a participating recycler by July 31, 2011.

Requirements:

1. Participating dismantlers will continue to receive and process retired vehicles from participating dealers as they have previously.
2. Participating dismantlers will have 6 months from the date of receipt noted on the Transfer Manifest form to ensure the retired vehicle is transferred to an AirCheckTexas DACM participating recycler.
3. Contact a participating recycler to make arrangements for transport/transfer to a participating recycling facility.
4. The white copy of the Retired Vehicle Transfer Manifest should now be mailed to your local program administrator. The green copy of the Transfer Manifest will continue to be mailed to the auto dealership.

If you have questions, please call your local program administrator or TCEQ staff at:
